## Profile

---

Experienced software engineer seeking opportunities to lead and contribute to innovative software projects. A collaborative team player with a proven track record of delivering innovative software solutions that meet or exceed project goals and client expectations.

## Professional Experience

---

2022/12 – present  
Bengaluru, India

### Software Engineer

*Credit Saison, India*

Working on multiple microservices with Java, Spring boot, Postgres, RestAPI, AWS, Cadence and RabbitMQ.

Designed and Implemented File-management service to support downloading and uploading files using AWS.

Designed and Implemented Schema-validation service to support downloading and uploading files using AWS.

Implemented a Commons client library to avoid duplicate code across microservices, which contains utilities, DTOs, RabbitMQ, Database and liquibase configurations.

2021/09 – 2022/12  
Bengaluru, India

### Software Engineer

*MyGate*

#### GuardApp

GuardApp is an advanced security-focused Java and Spring Boot application, dedicated to safeguarding sensitive data and ensuring data integrity and confidentiality.roducing critical features and optimizations.

Integrated Ehcache for in-memory caching, significantly boosting data retrieval speed and reducing database load.

Employed Spring Cloud Config to externalize configuration properties, simplifying management and enhancing flexibility.

Implemented efficient database connection pooling techniques, enhancing performance and scalability.

Integrated the Idenum service for data encryption and decryption capabilities.

Developed comprehensive unit tests to ensure the reliability and stability of GuardApp components.

2021/07 – 2021/09  
Bengaluru, India

### Software Engineer

*MoneyTap*

Did some POCs on IOS and Flutter using Swift and Dart.

2021/01 – 2021/06  
Noida, India

### Software Engineering Intern

*Appventurez*

#### HollyHealth [🔗](#)

- I worked on Android with Java for HollyHealth Mobile Application.
- I worked on MVVM architecture, Room database for local, Cloud messaging Integration of Api, Push Notifications.
- Made Responsive and User Interactive Application with bug free

## Education

---

2018 – 2021	<b>Master of Computer Application</b>
Karnataka	<i>National Institute of Technology Karnataka, Surathkal</i>
2014 – 2017	<b>Bachelor of Computer Application</b>
Patna	<i>Arcade Business College, Patna</i>

## Skills

---

Java	SpringBoot
Data Structure and Algorithms	PostgreSQL
MongoDB	DBMS
AWS	Docker
Git	Redis
RabbitMQ	JavaScript (Basic)
NodeJS(Basic)	Android

## Coding Profiles

---

### Leetcode

*Solved 1500+ problems*

### GeeksForGeeks

*Solved 600+ problems*

### HackerRank

*6\* in problem solving*

## Awards

---

Winner of Nakshatra 2K20(All India MCA Fest Organised by NIT Calicut)

1st Rank holder in DSA Course by Coding Ninjas

## Certificates

---

- Data Structure and Algorithms by Coding Ninjas [!\[\]\(5a0d662075632df1b39c9e3427a70093\_img.jpg\)](#)

## Interests

---

- Competitive Programming
